

## Academic Year 2023-24

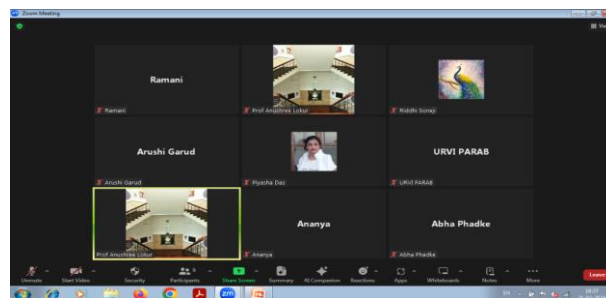

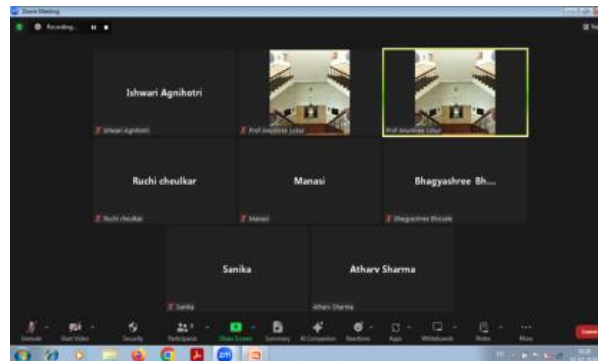

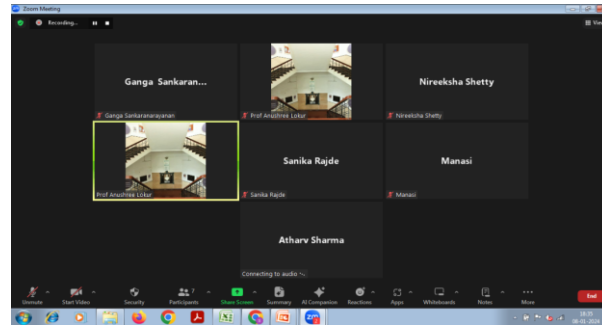

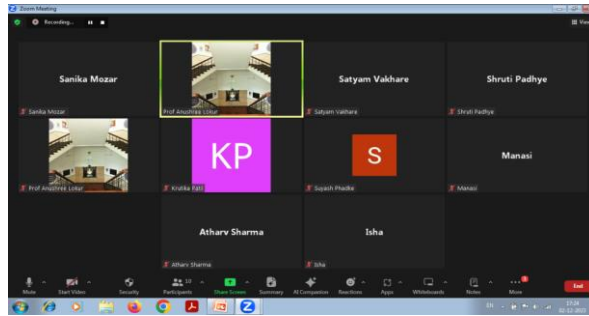

### Guidance for Competitive Exams

The College is always looking to provide guidance to students for competitive examinations through its Ruia Academy for Competitive Exams (RACE).

RACE had conducted online sessions for training Biological Sciences students for various entrance exams under flagship name 'Vyakhya', which was a series of 17 sessions and which were attended by 45 students from biological sciences. A session on strategies for TIFR entrance exams involving question papers solving was organized by RACE. It was attended by 22 students from different departments. Students were provided with PYQs to solve and to get their answers checked with discussion and interaction. To accustom students to the actual nature and pattern of the TIFR JGEEBILS Entrance exam; a mock test was conducted for 11 participants in the computer lab. To train students for writing statement of purpose (SOP) and appearing for interviews, an online session was conducted where students were asked to write SOPs after interaction with a resource person. Commonly-asked questions were discussed with students, who were also given the opportunity to answer those questions. An offline induction session for various exams like CSIR-NET, SET, GATE, and IIT-JAM was organized by RACE. It was attended by 87 students. Students actively interacted with both the resource persons to get their queries answered.

Throughout the academic year, RACE had organized various sessions and activities to guide students for competitive exams.
