VISION, MISSION & GOALS

Vision

To lead as a globally acclaimed Centre for Advanced Knowledge Creation, Research and Innovation with inclusivity and human values at its core and contribute to nation building by transforming students to life-long learners who can meet the challenges and demands of the global society.

Mission

To institutionalize practices that create a conducive environment that prepares students for higher education, to cater to diverse educational needs and inculcate universal human values. To foster generic and life skills that facilitate multi-dimensional growth of students to become informed global citizens capable of adapting and contributing to societal and global needs.

Objectives

1. To develop and conduct academic programs that enhance cognitive competencies in learners.
2. To provide high quality, affordable and inclusive education to all sections of society including various differently privileged groups
3. To foster positive academic experiences that enables the learner to develop better understanding of the various concepts and experiences.
4. To facilitate capacity building of learners and the teaching fraternity by encouraging creativity, adaptability and collaboration
5. To inculcate skills amongst learners and support their career building towards successful employment / entrepreneurship
6. To educate and create awareness amongst the learners about their ethical responsibilities and empathy towards family, society and environment and make them conscious global citizens and leaders of the future.

S. P. MANDALI, PUNE

Shikshana Prasarak Mandali, Pune is one of the premier educational societies in the state of Maharashtra. Established by four visionary school teachers in 1888, S. P. Mandali has made a remarkable contribution in providing quality education in the fields of primary, secondary as well as higher education. With a vision of 'Education for All', the Mandali has consciously reached out to different parts of the State from Pune, Mumbai, Solapur, Chiplun, Nagothane and now, even out of Maharashtra to Bengaluru with its educational mission. The Mandali has 63 educational institutions under its umbrella. Like other institutions under S. P. Mandali, the administration of the Ramnarain Ruia College is the responsibility of teacher administrators who are directly accountable to the Administrative Board, which is the executive authority of the parent body.

The Ramnivas Ruia Junior College is a part of Ramnarain Ruia College established in June 1937 by the Shikshana Prasarak Mandali, Pune.

With the introduction of the 10+2+3 pattern of education, there was a need to introduce a unit to cater to the junior college students. This led to the establishment of Ramnivas Ruia Junior College.

Like the Ramnarain Ruia Autonomous College, the Junior college unit too has emphasized on the importance of holistic and value-based

approach to education. consistently works towards building an environment that nurtures different kinds of intelligence, and equips its students with life skills to engage with all that the world has to offer them.

Our institutional working is based on and guided by some of the important educational philosophies. We are immensely influenced by Social progressive philosophy and hence regard education as process of preparing our learners for adulthood and for life in the society. We are also deeply influenced by the philosophy of Personal progression and hence believe in offering curriculum flexibility to satisfy the diverse needs and interests of students and enable the student to explore the deeper aspects of self. With our belief in the philosophy of reconstructionism we work with the goal to prepare the learner to be future adult members of society well enough to be able to initiate social changes.

Being guided by the above philosophies, we aim at helping students to attain holistic development which includes physical, social, emotional, moral and spiritual development. The educational programs and the different activities are developed with the aim to build individual and character strengths like self-efficacy, resilience, stress management, emotional management. We are inclined towards adopting Humanistic principles and see every student as a unique person and aim at promoting the student's internal tendencies towards self-realization and self-actualization.

We strive to make every learner a continuous learner and an independent learner so that education enables them to keep pace with the changing environment through their ability to continuously hone their skills.

VICE PRINCIPAL
Dr. Sangeeta Kamath

Ruia College works on the principle that -- Education should prepare the learner to have a solid foundation for higher education and prepare them to be a contributory member of the community. With this in focus, building these primary skills are considered important as it will pave way towards the further development of the student in every area of life.

We, at Ruia, believe that education should create sensitivity towards the natural and social environment and enable the learner to critically evaluate the importance of the man-nature relationship. Thus emphasis are laid on measures to preserve environmental resources will help in creating sensitivity towards the environmental problems and enable the young learners to develop pro-environmental behavior right since the formative stage.

We aim at developing a forward-looking education system which will build Cultural intelligence in the learner. Such an educational environment brings about greater awareness of the traditions as cultures of one's country and thereby enables better assimilation of the cultural and social values along with facilitation of a sense of identity with one's culture and country.

Through these measures education will become an important measure in

preparing the children and the adolescents to become a better human being and function effectively along with facing the challenges of the next century more adaptively and with greater resilience.

Programmes offered at Ramnivas Ruia Junior College

Arts

Science

DISTINCTIVE FEATURES

The Marathi Medium Division:

The Marathi Medium division is a distinct feature of the college. This division was started in the year 1971 to cater to regional needs. The response from the students was highly encouraging. Purely academic considerations give us the confidence to state that the step that we have taken is destined to be highly conducive to the health of University education in Mumbai.

Library and Reading Halls:

With one of the largest and richest collection in the academic arena, Ruia Library aims to fulfill the information needs of Ruia College. The main collection constituting books is more than 1.25 lac. Along with books, the library also has 6000+ bound volumes of back-issues of noteworthy periodicals, non-print material like CDs & DVDs and subscription to more than 100 national and international journals. The Library collection is completely computerized and all bibliographic details of books, journals are accessible to the students through the Online Public Access Catalogue (OPAC). Ruia Library possesses Institutional Membership of Asiatic Library, American Library and British Council Library. It is also registered as the member of INFLIBNET 'N-LIST' project under which the Library provides to all students free access to more than 80000 e-resources including variety of e-journals & e-books.

The Library houses a separate Reference section which houses nearly 3000 specialized reference collection including general resources as well as subject-specific resources. A free & open access to all its collection is provided to every student.

The Library has a beautifully renovated reading hall. The Reading Hall has a capacity to accommodate 300 students and has the latest syllabi, question-papers as well as around 5000 books which are regularly in-demand by students.

Ruia Cell for Students with special needs:

A highly praise-worthy component of Ruia's many student welfare activities is the Self-Vision Center that was set in 1995 to offer the best available facilities to its many visually challenged students, who, year after year, have given an excellent account of themselves in their pursuit of excellence in the academic field. Today, Ruia has about 60 visually challenged students who have easy access to advanced study facilities that help to enhance the quality of their performance. Under the 'Higher Education Scheme for Persons with Special Needs', Ruia has restructured and renovated the Self-Vision Center. The Self-Vision Centre naturally promises to bring a lot more enlightenment into the lives of those who will be empowered to live life on their own terms after they have stepped into the portals of Ramnarain Ruia College. The Self-Vision Centre celebrates the Louis Braille Day.

National Service Scheme (NSS):

The objective of the NSS is "To develop the personality of the students through community service". The NSS unit has been functioning with full vigour and enthusiasm and develops in the student a sense of responsibility, tolerance and co-operation. It enables the students to understand the community and identify its needs.

National Cadet Corps (NCC):

Our NCC students have always been selected as best cadets at the state and national level. This gives them the coveted opportunity to participate in the Republic Day Parade at Rajpath. Our cadets have been selected to participate in the Inter country Youth Exchange Programme.

Ruia Sports Academy:

The Ruia College Gymkhana has nurtured stalwarts in sports. The Gymkhana is fully equipped with a badminton court, boxing ring, highly sophisticated exercising equipments and a shooting range of international standard. The college has established Ruia Sports Academy to train young children in various sports. It aims at tapping young sports talent and train them through available sophisticated sports facilities.

Ruia Students' Council:

Ruia Students' Council, a representative student body was constituted in the year 1969. It has been highly successful in encouraging student participation in a variety of co-curricular and extra-curricular activities.

Ruia Global Partnership Cell:

Ruia College has entered into a 'Higher Education Academic Partnership' with the Commonwealth of Pennsylvania by signing a Memorandum of Understanding (MoU) with the Commonwealth of Pennsylvania in 2014. The MoU includes exchange programs for teachers as well as students and offers the opportunity for Research Collaborations and Project Collaborations.

The College has also signed an exclusive MoU with West Chester University, Harrisburg University and Indiana University of Pennsylvania USA. Under the Ruia Global Partnership cell, the College regularly collaborates with Indiana University of Pennsylvania, USA for the short-term Summer Programs.

Parent- Teacher Association (PTA): This association facilitates parental participation in the College. The PTA meets from time to time and discusses and obtains constructive and creative feedback on academic and co-curricular programmes of the College.

CO-CURRICULAR AND EXTRA-CURRICULAR ACTIVITIES COMMITTEES

- NCC
- NSS
- Science Association
- Performing Arts Society
- Natyavalay
- Sports Academy

Scholarships, Freeships, Awards and Prizes

Ruia College Awards & Prizes:

Ruia College confers various prestigious awards to meritorious students in various categories.

Government Scholarships & Freeships:

Application for the government scholarships and freeships should be filled in the prescribed forms as and when available. No student is eligible for the award of two scholarships simultaneously although a student is free to apply for more than one.
